Library Reference Catalogue

July - December 2025

New and Forthcoming Titles

Welcome

Welcome to the July to December 2025 Library Reference Catalogue.

We welcome your feedback on our publishing programme, so please do not hesitate to get in touch – whether you want to read, write, review, adapt or buy, we want to hear from you, so please visit our website below or please contact your local sales representative for more information.

www.routledge.com

Prices are correct at time of going to press and may be subject to change without notice.
Some titles within this catalogue may not be available in your region.

eBooks

We have over 50,000 eBooks available across the Humanities, Social Sciences, Behavioural Sciences, Built Environment, STM and Law, from leading Imprints, including Routledge, Focal Press and Psychology Press. These eBooks are available for both individual and institutional purchase.

INDIVIDUALS

Our eBooks are available from Amazon, Apple iBookstore, Google eBooks, Ebooks.com, Kobo, Barnes & Noble, Waterstones, Mobipocket, VitalSource, and CourseSmart.

LIBRARIES AND INSTITUTIONS

Subscribe to or purchase a wide range of eBook packages or pick and mix your own from our complete collection (a minimum number of titles applies). FREE TRIALS are available. For more information, please visit www.tandfebooks.com or contact your local sales team.

eUpdates

Register your email at www.tandf.co.uk/eupdates to receive information on books, journals and other news within your area of interest.

American Imperialism in the Long Nineteenth Century: A Documentary History, 1775–1919

Volume I: From Lexington and Concord to the Louisiana Purchase, 1775–1803

Edited by **Alys Beverton**

This four-volume collection brings together a diverse array of primary sources that help contextualise the impacts of American imperialism across the long nineteenth century. These fascinating volumes chart the motivations for, and reactions to, the growth of the United States from the American Revolution to the end of the First World War. Accompanied by extensive editorial commentary, the collection provides a valuable resource for those seeking to explore the causes, course, and consequences of US imperialism from 1775 to 1919.

E.S. Dallas Elsewhere

A Companion to E.S. Dallas in 'The Times'

Edited by **Graham Law, Jenny Bourne Taylor**

Providing a collection of E.S. Dallas's work, this volume explores the significance of the Scottish writer's practical and theoretical contributions to the criticism and journalism of the mid-nineteenth century, as well as offering an edited selection of Dallas's writings in the Victorian press. This book provides a comprehensive listing of around 250 contributions to other periodicals, and offers a generous edited selection of around 40 articles that are representative of this body of work as a whole. The source materials were published between the summer of 1850, just after Dallas left Edinburgh University, and early 1881 when a posthumous article appeared two years after his death.

Electric Power in Victorian Britain

Volume I: Electric Power Imagined

Edited by **Nathan Kapoor**

Series: Nineteenth-Century Science, Technology and Medicine: Sources and Documents

The materials in this volume cover the works of the natural philosophers, mathematicians, engineers, and entertainers for whom electricity became a vessel to say new things about energy and create a new means of generating motive force. The papers, books, and experiments explore the ways in which electricity transforms from a force of nature into a source of energy. Accompanied by extensive editorial commentary, this collection will be of great interest to students and scholars of the History of Science.

Electric Power in Victorian Britain

Volume II: Electric Power in Practice

Edited by **Nathan Kapoor**

Series: Nineteenth-Century Science, Technology and Medicine: Sources and Documents

The materials in volume two explore how the transformation of electric power imprinted on the political landscape of Great Britain and the Empire. Outside the lecture halls and laboratories, electric power became a source for inventors, politicians, economists, and the public to explore, define, and lament how energy consumption should look. Accompanied by extensive editorial commentary, this collection will be of great interest to students and scholars of the History of Science.

Electric Power in Victorian Britain

Volume III: Electric Power, Politics and Culture

Edited by **Nathan Kapoor**

Series: Nineteenth-Century Science, Technology and Medicine: Sources and Documents

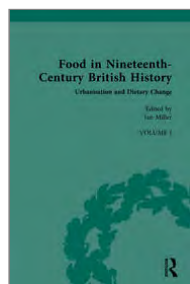

This volume of primary sources examines electric power, politics and culture in Victorian Britain. The materials review the formalization of electric power infrastructures or "grids" as they took shape on a local, national, and imperial scale, and explore how citizens, novelists, doctors, politicians, and electrical engineers imagined electric power networks impacting the present and future.

Food in Nineteenth-Century British History

Volume I: Urbanisation and Dietary Change

Edited by **Ian Miller**

Series: Nineteenth-Century Science, Technology and Medicine: Sources and Documents

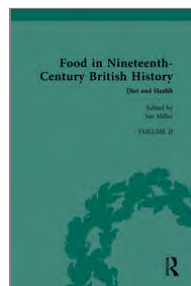

In the long nineteenth century, significant developments occurred in science, technology and medicine which transformed food production and consumption. Coupled with this was the impact of the Industrial and Agricultural Revolutions. Developments in agricultural production meant that the rapidly growing British population conglomerated around urban areas could be fed. However, worsening public health conditions in British towns and cities, combined with social problems such as poverty, meant that nutritional and dietary health declined. This volume explores the foods that were eaten in nineteenth-century Britain.

Food in Nineteenth-Century British History

Volume II: Diet and Health

Edited by **Ian Miller**

Series: Nineteenth-Century Science, Technology and Medicine: Sources and Documents

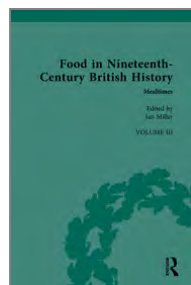

The rapid transition to modern urban life that accompanied the Industrial Revolution placed serious demands on Britain's food supply. Industrialisation created tremendous wealth, but urbanisation and rapid population growth prompted deep-rooted concerns about whether Britain's agricultural sector was fit for the job of feeding so many hungry mouths. Public health advocates looked upon the expanding towns and cities and concluded that urbanisation was the root cause of poor dietary health, a problem afflicting all classes and upheld the new British diet as a major part of the problem. This volume explores these interwoven themes of industrialisation, urbanisation and dietary health.

Food in Nineteenth-Century British History

Volume III: Mealtimes

Edited by **Ian Miller**

Series: Nineteenth-Century Science, Technology and Medicine: Sources and Documents

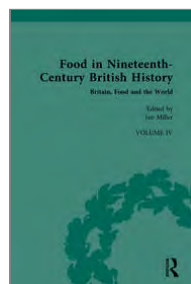

Around the 1860s, publishers began printing books dedicated to specific meals. Breakfast. Luncheons. Afternoon Tea. Dinners. The appearance of focused cookbooks reveals the growing influence of advanced printing technologies and rising literacy levels combined with changes in social life and class relations that coalesced around food, granting mealtimes great importance. The sources reprinted in this volume were produced in response to the changing social dynamics that accompanied industrialisation, urbanisation and socio-economic modernisation.

Food in Nineteenth-Century British History

Volume IV: Britain, Food and the World

Edited by **Ian Miller**

Series: Nineteenth-Century Science, Technology and Medicine: Sources and Documents

Volume 4 examines the British diet from its colonial and global perspectives. Colonialism, combined with rapidly improving global transport networks, introduced the British introduced to a plethora of unfamiliar foods from overseas. The British stomach was introduced to new spices and herbs, although fears persisted that the British constitution was ill-suited to rich, foreign foods. A selection of sources will bring to life how the increasingly globalised world changed British eating habits, while introducing readers to the many debates surrounding this transition.

Meteorology in Nineteenth-Century Society

Volume I: Weather Forecasting and Nation-State Building

Edited by Aitor Anduaga University of the Basque Country

Series: Nineteenth-Century Science, Technology and Medicine: Sources and Documents

This four-volume set of thematically focused and curated primary sources examines meteorology in nineteenth-century society. Knowing the history of meteorology and climatology since their inception as physical sciences in the nineteenth century is fundamental to understanding the causes and historical patterns of the severe weather and climate change that greatly preoccupy today's society. Thematically focused collections of primary sources support the research and study needs not only of scholars, but also graduate and postgraduate students. To this end, the volumes contextualize and explain the contents of these sources.

Nineteenth-Century Communications: A Documentary History, 1780-1918

Volume I: Reforming the Mails

Edited by **Karin Koehler, Nicola Kirkby, Kathleen McIlvenna, Eleanor Hopkins, Ellen Smith, Harriet Thompson**

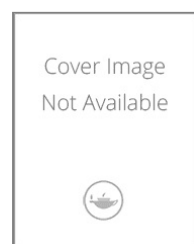

This volume focuses on the development of mail services between ca. 1780 and 1860. It takes as its starting point John Palmer's proposal to reform the mail coach system in the 1780s. As part of this volume, the following themes and subjects are covered: mail services prior to the introduction of the penny post; campaigns for and against the introduction of Rowland Hill's scheme for penny postage; cultural responses to, and repercussions of, the introduction of the penny post in 1840; the 1844 letter opening scandal; and the development of mail infrastructure from 1840 onward, including the development of rural post routes and the use of the railways for the conveyance of the mail.

Nineteenth-Century Communications: A Documentary History, 1780-1918

Volume II: Invention, Innovation, Transformation

Edited by **Nicola Kirkby, Karin Koehler, Eleanor Hopkins, Kathleen McIlvenna, Ellen Smith, Harriet Thompson**

This volume foregrounds the close, and mutually informing, relationships between mediated communication and technological innovation during the nineteenth century. It draws attention to the fact that communication was a driver of innovation, but also considers how communication practices adapted to new media and technologies. The following themes and subjects are covered: the development of the telegraph; mail trains, travelling post offices, and accelerated public communication; the development of and cultural responses to steam-packet technologies and infrastructures; the development of and cultural responses to submarine and transoceanic telegraphy; and the beginnings of telephony.

Nineteenth-Century Communications: A Documentary History, 1780-1918

Volume III: Cultures of Communication

Edited by **Kathleen McIlvenna, Karin Koehler, Eleanor Hopkins, Nicola Kirkby, Ellen Smith, Harriet Thompson**

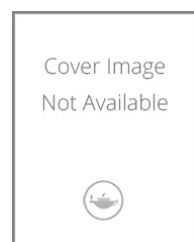

This volume illuminates some of the manifold ways in which Britain's communication infrastructure affected everyday life in nineteenth-century Britain. Accordingly, it highlights socio-economic, cultural, and material repercussions of selected aspects of mediated communication. It covers: the rise and role of the communication worker; the campaigns surrounding Sunday labour; the connections between new leisure opportunities and activities; concerns about morally suspect uses of new media and technologies of communication; and the presence of changing communication practices in material culture.

Nineteenth-Century Communications: A Documentary History, 1780-1918

Volume IV: Nation, Empire, Globe

Edited by **Ellen Smith, Karin Koehler, Nicola Kirkby, Eleanor Hopkins, Harriet Thompson, Kathleen McIlvenna**

This volume pays particular attention to Britain's embeddedness—and role in shaping—a rapidly expanding global communications network. In particular, it reflects the links between communications and Britain's imperial and colonial projects. It covers: the development of imperial communication routes and infrastructures and the introduction of imperial penny postage; the ramifications of new technologies and media of communication for warfare and diplomacy; emigrants' correspondence; and the domestic significance of communication infrastructure in relation to British national identity.

Nineteenth-Century British Pornography: Sources and Materials

Volume I: Textual Cultures of Pornography

Edited by Kathleen Lubey

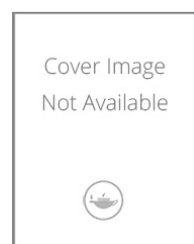

This volume provides background texts for the early modern origins of pornography including its philosophic and literary foundations. By the early nineteenth-century, pornographic publications came out of the radical milieu during the global age of revolutions. In England, publishers wrote political philosophy and pornography in tandem. The age of revolutionary pornography ended in the 1860s, when William Dugdale, the doyen of them all, died in prison, sentenced to hard labour for obscenity.

Nineteenth-Century British Pornography: Sources and Materials

Volume IV: Mass Market Pornography

Edited by Lisa Z. Sigel

This volume concerns itself with arrival of mass pornography at the end of the nineteenth century and the beginning of the twentieth. This volume details the rise of cheap, readily available, and much maligned materials such as postcards, pamphlets, and photographs. Mass pornography expanded the market to include women, children, the poor, and people of colour in Great Britain and across the British Empire. The volume documents imperial and international attempts to curtail the spread of pornography that took place between the 1880s and 1914 and provides examples of who suffered as a result.

Routledge
October 2025 : 490pp
Hb: 978-1-032-21376-7 : \$150

* For full contents and more information, visit: www.routledge.com/9781032213767

Nineteenth-Century British Pornography: Sources and Materials

Volume II: Pornography and Science

Edited by Sarah Bull

This volume details scientific pornography during the long nineteenth century. Though there is little overlap between pornography and sexual science currently, in the past pornographers played up scientific credentials to reassure readers while the state used the ambiguity between categories to censor information about birth control and sexual nonconformity. This volume provides evidence from the mid-century years during which time many of the main producers of pornography were affiliated with anthropology, geography, bibliography, and medicine.

Scientific Methodology in Nineteenth Century Britain

Volume I: Building Philosophical Systems

Edited by Charles H. Pence

Series: Nineteenth-Century Science, Technology and Medicine: Sources and Documents

This collection of primary sources examines scientific methodology in Britain during the long nineteenth century. This volume presents the views laid out in the four largest and most important treatises, as well as other contributors to the philosophy of science in this period. This title will be of great interest to students of the history of philosophy and the history of science.

Routledge
October 2025 : 270pp

Nineteenth-Century British Pornography: Sources and Materials

Volume III: Pornographic Literature and the Underground Book Trade, 1880s-1910s

Edited by Colette Colligan

This volume examines the growth of high-end literary pornographic productions that took place towards the final quarter of the nineteenth century and were largely published on the continent where control of production was lax. These publications were published and circulated for the elite. Publications that came from this group and period include *The Pearl, My Secret Life, Romance of Lust, and The Sins of the Cities of the Plain*; or, *The Recollections of a Mary-Ann, with Short Essays on Sodomy and Tribadism*. The volume includes Home Office and Foreign Office records that detail the methods attempted to limit the spread of pornography.

Scientific Methodology in Nineteenth Century Britain

Volume II: Deep Time: Geology and Evolution

Edited by Charles H. Pence

Series: Nineteenth-Century Science, Technology and Medicine: Sources and Documents

This collection of primary sources examines scientific methodology in Britain during the long nineteenth century. Over the course of the nineteenth century, emblematically but not exclusively represented by the work of Charles Darwin, natural science reconfigured the ways in which practitioners would treat the sciences of "deep time" – especially geology and the new theory of natural selection. This volume uses primary sources and editorial commentary to examine the topics of geology and evolution in this period. This title will be of great interest to students of the history of philosophy and the history of science.

Scientific Methodology in Nineteenth Century Britain

Volume III: Quantifying Life: Statistical, Social and Human Sciences

Edited by **Charles H. Pence**

Series: Nineteenth-Century Science, Technology and Medicine: Sources and Documents

This collection of primary sources examines scientific methodology in Britain during the long nineteenth century. The nineteenth century played host to the development, for the first time, of statistical and probabilistic methods across the biological, human, and social sciences. A new kind of quantified, statistical social science came into being. Such innovations were quickly marshaled for use in the life sciences, from evolution to agriculture to eugenics. This title will be of great interest to students of the history of philosophy and the history of science.

Scientific Methodology in Nineteenth Century Britain

Volume IV: Forces, Fields, and Energy: Physical Sciences

Edited by **Charles H. Pence**

Series: Nineteenth-Century Science, Technology and Medicine: Sources and Documents

This collection of primary sources examines scientific methodology in Britain during the long nineteenth century. The nineteenth century begins with what was still a largely Newtonian perspective on the nature of matter and the physical world. By the end of the century, physical science had refocused itself around the concept of energy, the first moves toward the understanding of atomic structure had been undertaken, and electricity and magnetism were understood in terms of fields of force. This volume examines primary sources related to the philosophy of the physical sciences, and will be of great interest to students of the history of philosophy and the history of science.

Scottish Art in the Industrial Age, 1800-1914

Volume I: Painting, Travel and National Identity c.1800-1860

Edited by **John Morrison**

This volume examines the ways in which Scottish identity was expressed through visual and material culture in the early to mid-nineteenth centuries, culminating in Victoria's romanticisation of Scotland, or 'Balmorality'. Key artists included Sir David Wilkie, Alexander Nasmyth and Henry Raeburn and later Horatio McCulloch who helped to perpetuate the myth of Scotland as a retrogressive, highland nation. In 1826, the Royal Scottish Academy was established in Edinburgh, providing artists with the opportunity to train and exhibit their work. Accompanied by extensive editorial commentary, this collection will be of great interest to students of Art History and Scottish History.

Scottish Art in the Industrial Age, 1800-1914

Volume II: Scottish Art in the Industrial Era, 1860-1900

Edited by **Freya Spoor**

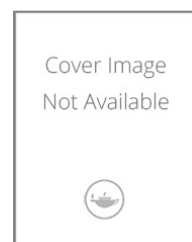

This volume introduces key artists such as the Scottish Pre-Raphaelites and the Glasgow Boys and engages with the critical debates and artistic theories that were circulating in the second half of the nineteenth century. This was a period when Scotland was experiencing huge growth and economic expansion and centres such as Edinburgh and Glasgow saw the emergence of the Glasgow Institute for the Fine Arts and of smaller artists' clubs, providing new opportunities for women. Accompanied by extensive editorial commentary, this collection will be of great interest to students of Art History and Scottish History.

Scottish Art in the Industrial Age, 1800-1914

Volume III: Arts, Crafts and the Celtic Revival c.1880-1914

Edited by **Elizabeth Cumming**

This volume focuses on artists and writers associated with the Arts and Crafts movement, Scottish Symbolism and the Celtic Revival. During the period, Glasgow flourished as an artistic centre under the leadership of Fra Newbery at Glasgow School of Art. This period saw the rise in importance of the decorative arts and the emergence of a number of women designers. The leading artists at the turn of the century enjoyed an international reputation, exhibiting at the Vienna Secession in 1900. Accompanied by extensive editorial commentary, this collection will be of great interest to students of Art History and Scottish History.

Scottish Art in the Industrial Age, 1800-1914

Volume IV: Collecting, Philanthropy and the Art Market c.1800-1914

Edited by **Frances Fowle**

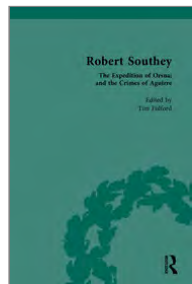

This volume examines the emergence of a market for Scottish art among Scotland's wealthy industrialists in the mid-nineteenth century and in the period leading up to the First World War. As well as considering key mercantile collectors, the volume focuses on major art dealers who gave artists their first solo exhibitions. In Edinburgh Scottish artists were supported initially by Alexander Hill and later by Peter McOmish Dott at the Scottish Gallery, who supported the Scottish Colourists in the early 20th century. Accompanied by extensive editorial commentary, this collection will be of great interest to students of Art History and Scottish History.

Robert Southey

The Expedition of Orsua; and the Crimes of Aguirre

Edited by **Tim Fulford**

First published in 1821, Robert Southey's 'Expedition of Orsua and the Crimes of Aguirre' is the first account in English of one of the earliest expeditions down the Amazon River, made in the years 1560-1 by a renegade band of Spanish conquistadors in search of El Dorado. This sensational story features mutiny, madness, and murder—the total breakdown of order among power-hungry colonists as they are carried further into the jungle. This edition contains a comprehensive critical apparatus that make sense of the major issues posed by the text and show how it contributes to studies of Southey, of colonialism and of travel/exploration writing in the nineteenth century more widely.

What Has Been. A Novel, by Eliza Kirkham Mathews

Edited by **Jonathan Sadow , Elizabeth Neiman**

Series: *Chawton House Library: Women's Novels*

What Has Been, originally published in 1801, is an affecting, lively, and accessible read for scholars and students of the long eighteenth century. Eliza Kirkham Mathews' portrait of a struggling female novelist connects and also distinguishes What Has Been from novels by now-canonical female authors of this period. Simultaneously, it provides a new vantage-point for assessing obscure or long-forgotten novels. This volume will be of great interest to teachers and scholars of the long-eighteenth century and Romantic era.

Critical Social Research

Lee Harvey

Series: Contemporary Social Research

First published in 1990, this title is a unique methodology textbook that provides students, lecturers and indeed all those involved in social research with an invaluable illustrative guide. The author argues that critical social research offers a perspective and a methodology that transcends divisions between quantitative and qualitative approaches. At the heart of critical social research is the idea that knowledge is structured by existing sets of social relations; its aim is to provide knowledge that engages with and challenges prevailing oppressive social structures. This book is divided into three parts, each addressing a different form of oppression – class, gender and race.

Data Construction in Social Surveys

Nicholas Bateson

Series: Contemporary Social Research

Before the early 1980s, much attention had been given in the social survey literature to the analysis and interpretation of data, but much less to the problems of constructing the individual datum. What do we mean by 'survey data'? What are 'good' data, and how do we recognise them? First published in 1984, Nicholas Bateson tackles these questions and offers a redefinition of the validity of survey data and suggests a new approach – or a more assertive formulation of an old approach – to the testing of data for validity. He specifies conditions that must be satisfied if survey data are to be called valid, and brings out the implications of his ideas for the management of survey error.

Doing Secondary Analysis

Angela Dale , Sara Arber , Michael Procter

Series: Contemporary Social Research

Originally published in 1988 Doing Secondary Analysis is a practical guide to the secondary analysis of large-scale survey data. At a time when funding for primary data collection was increasingly constrained, the secondary analysis of high-quality government surveys offered the social scientist an unrivalled opportunity. This volume provided a guide which moves through every stage of 'doing secondary analysis'. The authors begin with the conceptualization of the research problem and examine all the practicalities of using both standard rectangular data and hierarchical data, and of deriving simple and complex variables.

Research Methods for Elite Studies

Edited by George Moyser , Margaret Wagstaffe

Series: Contemporary Social Research

Elites are crucial groups of people in all but the very simplest societies. But who exactly are they, and how does one study them? In sharp contrast to the ordinary citizenry, the methodology for the study of elites was contentious and under-developed at the time. Originally published in 1987, Research Methods for Elite Studies provided a wide-ranging survey of the techniques, problems, issues and practicalities of elite research. These are explored through case studies conducted by a range of experts, all personally involved in the field of elite research about which they write. Methodology here is not divorced from substance, but vividly set in its context by the researchers.

Social Causality

Jerald Hage , Barbara Foley Meeker

Series: Contemporary Social Research

Originally published in 1988, Social Causality takes the reader through the theoretical and practical maze that has to be negotiated before definitive statements about cause and effect in social research can be made. It was designed for the undergraduate student on a first research methods course; graduate students on more advanced methods courses will also find that it addresses questions with which they are regularly confronted. The authors explore the use of the term 'causality' as it exists in the social methodology, social theory and philosophical literatures, explaining different usages and common misconceptions.

Social Measurement and Social Indicators

Issues of Policy and Theory

Michael Carley

Series: Contemporary Social Research

For the early pioneers of the social indicator movement, the possibilities of doing social good by developing the tools of social measurement seemed endless. However, in the early 1980s these high, and perhaps naïve, hopes remained unfulfilled, especially for the data needs of the policy-maker. These difficulties reflected both policy-related and methodological issues. Originally published in 1981, Social Measurement and Social Indicators is not a 'how-to' guide on the construction of social indicators, but rather a critical and optimistic view of these central issues, as embodied in the literature and in practice at the time.

The Survey Method

The Contribution of Surveys to Sociological Explanation

Catherine Marsh

Series: Contemporary Social Research

In the early 1980s, the survey was the most widely used method of social research, but it had been the object of much damaging criticism. Critics maintained that there were philosophical flaws inherent in survey practice which made it unacceptable as valid method; sociology students were taught that surveys are 'positivist' and that alternatives should be sought wherever possible. In *The Survey Method*, originally published in 1982, Catherine Marsh examines such claims and shows that much of this criticism was ill-founded.

Lawn Tennis

J. T. Hankinson

Series: J. T. Hankinson on Sport

Originally published in 1951, in *Lawn Tennis* the intention was to teach the game from the very beginnings, and to this end the written description was reduced to a minimum, and, so far as possible, the teaching was built up round the photographs. The author introduced four most life-like puppets, which he named the Lawn Tennis Quads, and they most effectively demonstrate the principles of the basic strokes. They are supported by action shots of young players. The author also constructed a model lawn tennis court, and to illustrate the more simple tactical situations of the game the puppets were invited to play singles and doubles on this court.

Cricket for Schools

J. T. Hankinson

Series: J. T. Hankinson on Sport

Originally published in 1946, this was primarily a cricket book for schools and contained much that was new at the time. It was written by a schoolmaster, produced in a school, and a unique feature was that the action photographs are of boys who were at that time in the school team. In this book his methods are analysed in a style likely to commend itself to readers of all ages. There are 97 action photographs to illustrate the author's teaching. While this book was primarily for schools, the instructional detail and the attractiveness of the photographs would also have appealed to more mature cricketers and the book was strongly recommended to all who are interested in the game.

Hockey for Schools

J. T. Hankinson

Series: J. T. Hankinson on Sport

Originally published in 1947, this book deals with hockey coaching and practice in schools. The book opens with descriptions of the basic arts: hitting, gathering, dribbling, tackling etc., required of all players, after which the play and tactics of each position on the field are analysed. Other chapters deal with captaincy, coaching, school organization, how to watch a match, and some explanatory comments on the rules of the game. The book is illustrated by many magnificent action photographs. While this book was primarily for schools, the instructional detail and the attractiveness of the photographs would also have appealed to more mature hockey players.

Soccer for Schools

J. T. Hankinson , A. H. Chadder

Series: J. T. Hankinson on Sport

Originally published in 1948, the book opens with descriptions of the basic arts of soccer: gathering the ball, kicking, heading, etc., required of all players, after which the play and tactics of each position on the field are analysed. A specially interesting chapter is that on team tactics and positional play, and is illustrated by some excellent photographs of a tactical table, in which the dispositions of the players in various situations are diagrammatically set out. While primarily for schools, the instructional detail and the attractiveness of the photographs would also have appealed to more mature players.

Squash Rackets

J. T. Hankinson

Series: J. T. Hankinson on Sport

Originally published in 1949, in *Squash Rackets*, Mr Hankinson produced something that was outstanding. The written description was reduced to a minimum, and the teaching was built up round the photographs – and these were remarkable for the time. For the first time action photographs illustrated all the strokes in squash rackets. Not content with that, the author and his photographer, used their ingenuity in providing excellent photographs to illustrate the tactical side of the game. A model court was constructed, and, as players, two realistic puppets were used. The result was a series of photographs which not only explain the tactics, but also looked most convincing.

A Question of Answers

Volume I

W. P. Robinson , Susan J. Rackstraw

Series: Primary Socialization, Language and Education

First published in 1972, the research reported here presents a theoretical framework for describing linguistic features of a range of verbally expressed answers and their associated questions. Bernstein's theory is used to generate a number of predictions about the variety and quality of answers that mothers and children are likely to offer to 'wh' questions. The usefulness of the scheme is tested against the answering behaviour of members of different social classes, Bernstein's predictions are mostly supported. The validity of the categories in the classificatory scheme is explored more in later chapters by means of a correlational analysis of the answers of 7-year-old children.

Code in Context

Diana S. Adlam

Series: Primary Socialization, Language and Education

In the 1970s, Basil Bernstein's work on children's sociolinguistic codes and his formulation of the contexts in which they are transmitted were the most influential in the field. However, as Diana Adlam points out, neither code nor context as Bernstein saw them can be properly grasped until they are understood in interaction. Originally published in 1977, this collection of papers contains both theoretical and empirical investigations of Bernstein's ideas, and seeks to make that necessary connection. The study as a whole is concerned primarily with Basil Bernstein's ideas on the relationship of different familial transmission systems to the way in which children learn to use language.

Selection and Control

Teachers' Ratings of Children in the Infant School

W. Brandis , Basil Bernstein

Series: Primary Socialization, Language and Education

First published in 1974, this title consists of an analysis of teachers' ratings of children in a middle-class and in a working-class area at the end of their first year and the end of second year of life in the infant school. Presented in two parts, Part One is highly technical as it sets out in some detail the logic of the statistical description. Part Two gives one interpretation of the findings as these might throw light upon differences in the patterns of the teachers' judgments in the middle-class and working-class area.

Social Class, Language and Communication

W. Brandis , D. Henderson

Series: Primary Socialization, Language and Education

Originally published in 1970, *Social Class, Language and Communication* explores the different effects of parental social class, the ability and sex of the child and a measure of the mother's reported communication to her child, upon aspects of five-year-old children's speech. The study shows the relationship between a measure of linguistic flexibility in children and their family's social class position and includes the construction and application of an index of maternal communication and control. Today it can be read in its historical context.

Social Control and Socialization

A Study of Class Differences in the Language of Maternal Control

Jenny Cook-Gumperz

Series: Primary Socialization, Language and Education

Basil Bernstein's theory of social control was the foundation for this pioneer study of the language mothers use to socialize their children, and how it affects their understanding of social values and social attitudes as they grow older. First published in 1973, Cook-Gumperz's research was particularly important in that it made use of analytical methods which could measure numerically the manifestations of the three kinds of control – imperative, positional, personal – that Bernstein distinguished. Using the coding grid developed by Bernstein and herself, the author demonstrates clearly the relations between maternal class, maternal approach to discipline and the child's progress.

Diet and Health in Modern Britain

Edited by Derek Oddy Derek Oddy passed away 26.12.18 as advised by Alex Oddy probate documents requested SF case 01816204, **Derek Miller**

Series: Routledge Library Editions: Food and Diet

Originally published in 1985, this book examines the changes in diet and health in Britain during the rapid social development of the late nineteenth and early twentieth centuries. It is particularly concerned with the ways in which the problems of urban life were ameliorated. How was infant and child mortality reduced? How did family life go on in conditions where income was low and sometimes intermittent, where protected water supplies and proper sanitation were not available, and where food preservation and food technology were still limited? The contributors to this book were historians and nutritionists and this gives a strong interdisciplinary flavour to the volume.

Talk Reform

Explorations in Language for Infant School Children

D. M. Gahagan , G. A. Gahagan

Series: Primary Socialization, Language and Education

First published in 1970, this title describes the development of an exploratory language enrichment programme devised by the authors and carried out by teachers in a group of primary schools in a working-class area of London. Inspired by Bernstein's theory of different language codes and their relation to educational underachievement, the authors devised a series of situations in the classroom as preconditions for extending language use. Their aim was to reorient the reader to the social functions of language, so that teachers who understood the ideas behind this programme would be able to carry out the activities described as well as those they may have thought up for themselves.

Food Adulteration and How to Beat It

The London Food Commission

Series: Routledge Library Editions: Food and Diet

'All natural: no artificial colours or flavours'. This was an increasingly familiar claim made for the food we bought in the late 1980s. But what about the other ingredients? Additives are only one form of adulteration. Nitrates, excess water, pesticide residues, too much fat, and the newest of them all food irradiation, are some of the others. The questions they pose for all of us are inescapable, as is the overall issue of poor-quality food dressed up to be what it is not. In this book, originally published in 1988, the London Food Commission, Britain's independent food watchdog, spells out the dangers, and suggests solutions.

Development and the Problems of Village Nutrition

Sue Schofield

Series: Routledge Library Editions: Food and Diet

First published in 1979, this title was concerned with the development of micro-level approaches to nutrition problem identification. The author believed that malnourishment could only really be examined, analysed and understood at the micro level where the whole range of factors affecting nutrition are displayed, and individual, community and regional problems could be diagnosed to provide the basis for more meaningful action and plans. The village-oriented approach to micro-level nutrition problems was initiated as a new approach to the study of development problems by the Village Studies Programme. The research on which this book is based was conducted as part of the programme.

Food Aid Reconsidered

Assessing the Impact on Third World Countries

Edited by Edward Clay Overseas Development Institute, UK, **Olav Stokke**

Series: Routledge Library Editions: Food and Diet

Food aid continues to be a high profile, and perhaps the most controversial form of aid. This title, first published in 1991, which focuses on recent experience, especially in Sub-Saharan Africa, provided a stocktaking on the state of the debate and the contribution that economics and other social sciences had made to resolving many of the controversies surrounding food aid. These issues include the gap between the potential and actual contribution of food aid on food security and agricultural production in developing countries, European dairy aid to India and possible alternatives to exporting food from developed countries for providing humanitarian assistance to hungry people.

Keeping Children Healthy

The Role of Mothers and Professionals

Berry Mayall

Series: Routledge Library Editions: Food and Diet

In Britain, class differences in children's health remain wide, and it is often assumed that an important contributory factor is class differences in the attitudes and behaviours of mothers. First published in 1986, *Keeping Children Healthy* draws on an empirical study to throw light on mothers' actual health care of their young children and to consider what differences, if any, there are between groups of mothers. The book is about how women care for their children's health: what they think matters, what they actually do, and what affects their actions. Throughout, mothers' perspectives are considered in the light of the social and material context of their family lives.

The Earth Can Feed Us

Hugo Osvald

Series: Routledge Library Editions: Food and Diet

First published in 1966, the urgent task confronting our generation – to produce food in sufficient quantity and of adequate quality for the world's increasing population – may have appeared difficult to solve. Some regarded it as impossible, visualising a world in which the population would increase quicker even than scientific man could feed it and seeing a solution only in wholesale birth control. To these Hugo Osvald, a Scandinavian nutrition expert, did not belong. He surveys all the means, scientific and agricultural at our disposal at the time and reveals that, by their rapid development, enough food can be produced for a world population several times larger than at present.

The Making of the Modern British Diet

Edited by **Derek Oddy** Derek Oddy passed away 26.12.18 as advised by Alex Oddy probate documents requested SF case 01816204, **Derek Miller**

Series: Routledge Library Editions: Food and Diet

Food is the physiological basis of man's existence but is also an expression of a society's culture and may play many roles other than physiological in terms of both personal and group relationships. Originally published in 1976, *The Making of the Modern British Diet* focusses on the role of food during industrialisation and urbanisation in Britain. Part One contains a series of commodity studies covering bread, cereals, biscuits, meat, milk, tea and cocoa. The emphasis in Part Two is predominantly on consumption. Part Three provides a nutritional evaluation which is an entirely new approach in an historical work.

The Politics of Food

George Darling

Series: Routledge Library Editions: Food and Diet

Originally published in 1941, a popular discussion on Food Policy was very welcome at a time when it had become a personal problem for every housewife. It was the purpose of this book to bring home to the general public the nature of the problem. The author first exposes capitalism's failure to feed the people adequately either in peace or war. He traces the failure to its root cause, and points out that this nation had never had a food policy. Finally, he shows how policy could be re-cast on a cooperative basis to meet the conditions resulting from the war. Today it can be read in its historical context.

Children and Parents Enjoying Reading

Parents and the Literacy Hour: A Teacher's Guide

Peter Branston , Mark Provis

Series: Routledge Library Editions: Home and School

With the introduction of the Literacy Hour in 1998, the case for harnessing parental involvement in promoting children's literacy was stronger than ever. Originally published in 1999, this book offered a detailed and practical approach, based on three key concepts: keeping the child in the driving seat, continuing support from the school to the parents and daily reading at home. It is presented in an accessible manner and offers practical advice to teachers in running and evaluating a scheme. It also gives parents a chance to think about the nature of their involvement at word, sentence and text levels, introducing them to the framework of the National Literacy Strategy.

Home-School Work in Multicultural Settings

Edited by **John Bastiani**

Series: Routledge Library Editions: Home and School

Originally published in 1997, the purpose of this collection was to raise the profile of the valuable work that was being done with minority ethnic parents and families in many different settings and circumstances. Contributors discuss issues and concerns and illustrate the range, scope and variety of provision and practice at the time. The collection will be of interest to those with a special responsibility for working with black and bilingual parents in schools and other agencies, and also to teachers and others who work with minority ethnic pupils in mainstream classrooms.

Listening to Parents

An Approach to the Improvement of Home/School Relations

Janet Atkin, John Bastiani

Series: Routledge Library Editions: Home and School

In the late 1980s positive interaction between home and school in education was receiving attention from politicians, parents and teachers. It was thought that by listening to parents, teachers might gain insight into the ways in which they could work more effectively with children and their families. Originally published in 1988, this book was of great practical value. It draws upon the authors' work over the previous decade to explore the links between listening to the parental perspective on a child's schooling and the development of more effective home/school practice. Still relevant today, this book can be read in its historical context.

Moral Education

A Sociological Study of the Influence of Society, Home and School

William Kay

Series: Routledge Library Editions: Home and School

In the early 1970s few subjects in schools had grown faster than moral education, and more and more teachers were seeking guidance in a changing and developing field where a training in the 'traditional' subjects could not always provide sufficient help. Originally published in 1975, Dr Kay maintained that a study of the sociological factors involved could give considerable insight into the meaning and purpose of moral education, and in this book he examines the effect on the individual pupil of the home, the school and differing socio-economic class structures and ideologies.

Parent Power

A Dictionary Guide to your Child's Education and Schooling

Edited by **Nicholas Bagnall**

Series: Routledge Library Editions: Home and School

Originally published in 1974, Parent Power was a comprehensive handbook for parents on education and schooling at the time. Clearly and concisely, it outlined the rights of parents within the education system, and set out how they might be most effectively asserted to achieve results. It was designed as a source of ready answers to the day-to-day problems that faced all parents of schoolchildren in the 1970s. Parent Power was compiled by a team of experienced teachers and educational journalists in easy-reference form. Today it can be read in its historical context.

Parents and Teachers

Partners or Rivals?

Lawrence Green

Series: Routledge Library Editions: Home and School

Originally published in 1968, this book was for every parent who had ever wondered 'What goes on in my child's school – whom do I ask, what do I ask, and dare I ask?'; and for every teacher who had ever thought, 'How can I get closer to parents and enlist their aid in what I am trying to teach?' At the time Lawrence Green was a junior-school head teacher with long experience in the 'deprived' areas of a large city – and had two children at school. His articles on parent-teacher cooperation in the magazine 'Where?' aroused very wide interest and led to reviews in the national press and appearances on the BBC and ITV.

Parents as Educators

Keith J. Topping University of Dundee, UK

Series: Routledge Library Editions: Home and School

Modern practice in the 1980s was to involve parents increasingly in the education of their children, and was supported by legislation. Particularly when children had special needs, parents required structured training and support to ensure they effectively sustained their vital role as educators at home. Many large-scale programmes to provide this had been developed throughout the world. However, not all of these had been thoroughly evaluated, and the existing literature was scattered and difficult to access. First published in 1986, this book critically analyses over 600 international English-language research reports on the effectiveness of parent training programmes.

Parents Should Be Heard

Daphne Nicholson Bennett

Series: Routledge Library Editions: Home and School

For any parent or parent-to-be this book, originally published in 1972, was intended to open new doors, answering questions about themselves and their children, and be illuminating to many others professionally concerned with parents. Many real-life examples from the author's work demonstrate how parents who are encouraged to express their feelings through discussion in an unjudging atmosphere can better 'solve' their problems and enjoy their children. Readers learn through the experience of these typical parents who overcame fears of expressing their often surprisingly complex feelings.

Schooling, Welfare and Parental Responsibility

Michael G. Wyness

Series: Routledge Library Editions: Home and School

In the 1990s, issues of child protection, child abuse and delinquency had generated public and academic concerns over the ability of adults to underwrite the physical, moral and social welfare of children. At the same time, recent educational reform had provoked debate around the shifting balance of power between those most involved in child development – parents and teachers. Originally published in 1996, *Schooling, Welfare and Parental Responsibility* brings these two agenda together within a coherent theoretical framework and offers an empirical analysis grounded in perspectives of both parents and teachers.

The Contribution of Parents to School Effectiveness

Edited by **Sheila Wolfendale** University of East London, UK, **John Bastiani**

Series: Routledge Library Editions: Home and School

School and educational achievement is dependent on many complex factors and is usually seen as the key outcome measure by which school effectiveness can be judged. Originally published in 2000, this book aimed to establish whether or not educational achievement can in part be ascribed to the quality and range of home–school links. It provided a timely contribution to the continuing debate at the time on the pivotal relationship between schools and the families which form their constituencies. This book enabled all those interested in education to evaluate the educational benefits of a home–school relationship between pupils, parents, teachers and schools.

Working with Parents

A Practical Guide for Teachers and Therapists

Roy McConkey

Series: Routledge Library Editions: Home and School

In the 1980s working with parents in the education and care of their children was more often preached than practised by professionals. Originally published in 1985, *Working with Parents*, aimed at professionals in training or newly qualified, drew together for the first time many examples of how partnership with parents can evolve and be successful. It not only gives detailed suggestions for working with parents on a one-to-one basis but also describes how to handle parent groups, organise courses, give effective talks and use video.

Behaviour Therapy Nursing

Philip J. Barker

Series: Routledge Library Editions: Nurse Education and Nursing Care

The behavioural approach in nursing practice is the main concern of this book, originally published in 1982. Although the discussion concentrates on the fields of psychiatry and learning disabilities, it is also relevant to other areas of nursing such as the care of the elderly or of sick children. The book traces the development of behaviour therapy from its beginnings in the experimental laboratory work of Pavlov, Skinner and Watson to the more recent influences of social learning theory. A survey is made of the major stages in the therapy process, and this is followed by a detailed description of possible types of treatment.

Community Medicine

A Textbook for Nurses and Health Visitors

W. E. Waters , K. S. Cliff

Series: Routledge Library Editions: Nurse Education and Nursing Care

Originally published in 1983 this book gives a basic grounding in community medicine and epidemiology for district, community psychiatric and other nurses and health visitors. It provides the background necessary to an understanding of how diseases occur and spread in populations, and to an appreciation of the possible planning and prevention that such health professionals can undertake. Although the book focuses on medicine and epidemiology, it is written specifically for nurses and health visitors, and throughout a conscious effort is made to relate the discussion to practical work.

Community Nursing

Research and Recent Developments

G. Baker , J. M. Bevan , L. McDonnell , B. Wall

Series: Routledge Library Editions: Nurse Education and Nursing Care

Originally published in 1987, this book is based on material generated by the former Department of Health and Social Security (DHSS) research project into development in community nursing since the 1974 reorganisation of the National Health Service in the UK. The community nursing staff involved comprised health visitors, district nurses and practice nurses. A wide range of issues which have enduring relevance today include staffing levels, education, health service priorities, government policies, changing professional roles and innovations in professional practice. The authors consider evaluative research undertaken to assess the pros and cons of developments.

International Issues in Nursing Research

Edited by **Shirley M. Stinson, Janet C. Ross-Kerr**

Series: *Routledge Library Editions: Nurse Education and Nursing Care*

Originally published in 1986 this book presents a review of specific international themes in nursing research, particularly methodological issues; policy and funding issues; preparation for nursing research and other perspectives such as publication and the role of professional associations in nursing research development. In the past, geographical political, cultural, educational and economic barriers all contributed to insularity in nursing, but the authors maintain that there are many common problems and the profession can benefit greatly by an exchange of ideas.

Interpersonal Skills in Nursing

Research and Applications

Edited by **Carolyn M. Kagan**

Series: *Routledge Library Editions: Nurse Education and Nursing Care*

Originally published in 1985, this book locates interpersonal skills in nursing in both social psychological and nursing contexts. It exposes nurses and nurse educators to different strategies for assessing, teaching and evaluating interpersonal skills and examines those aspects of specialised nursing care that raise particular issues in the field of interpersonal skills. The book thus combines reports of specific research studies with practical applications.

Nurse Education and the Curriculum

A Curricular Model

Fred Greaves

Series: *Routledge Library Editions: Nurse Education and Nursing Care*

The nursing process, the curriculum process and theoretical nursing models are essential areas of concern for those nurses who are involved with the design, planning and implementation of nurse educational programmes. Originally published in 1984, this book reviews and brings together appropriate elements of these three areas. A critical analysis of nursing theory, and relationship of theory to practice, and an overview of nursing models is presented along with an examination of general curriculum theory and practice and nursing applications.

Nurses

The Inside Story of the Nursing Profession

Donald Gould

Series: *Routledge Library Editions: Nurse Education and Nursing Care*

Nurses now, just as when this book was originally published in 1988, are under paid and overworked and thousands are leaving the profession every year. But why do many more highly intelligent and well-educated men and women stick to such a difficult and ill-paid job? Donald Gould has tried to discover the answer to this question by interviewing all kinds of nurses. For most the many frustrations and hardships of their jobs are more than outweighed by the immense satisfactions of the daily round.

Nursing Education

Research and Developments

Bryn D. Davis

Series: *Routledge Library Editions: Nurse Education and Nursing Care*

Originally published in 1987 this book presents a number of research-based studies in nursing education, concentrating particularly on the nursing curriculum and its planning, content implementation and evaluation. Some of the chapters report on specific research projects whilst others are more general reviews. The book is written by leading researchers in nurse education in the UK and will be of interest to nurse tutors and teachers and researchers.

Nursing History

The State of the Art

Edited by **C.hristopher J. Maggs**

Series: *Routledge Library Editions: Nurse Education and Nursing Care*

In recent years there has been an immense growth in interest in the history of nursing, both from nurses themselves, who are keen to discover the roots of their practice and profession, and on the part of historians and sociologists of health care to nursing history, women's history and the development of professional groups. Originally published in 1987 this book presents some of the most interesting work in this field from authors in Britain, the USA and Australia and is a major addition to this literature.

Nursing in Contemporary Society

Una Maclean

Series: Routledge Library Editions: Nurse Education and Nursing Care

Originally published in 1974, the main aim of this book is to help nurses to a deeper understanding of those whom they are learning to serve. The author explains the relevance of sociology to contemporary nursing, showing that patients cannot be fully understood or properly treated without a knowledge of the social background of their complaints, and without knowing something about the families upon whom they depend and who are dependent upon them. A sociological perspective can also help nurses in regard to their position: nurses play a wide variety of roles in a wide range of situations. A chapter is devoted to relationships within hospitals, particularly with doctors.

Nursing Management and Education

A Conceptual Approach to Change

Michael P. Bowman

Series: Routledge Library Editions: Nurse Education and Nursing Care

Originally published in 1986, this book examines the nature of management in nursing and discusses the relevance of management education to the job of the nurse. It examines key reports and legislation of the day as they affected the health service in general and nursing in particular. It aims to assist senior nurses in their teaching of management education and to assist first-line nurses in understanding and applying the principles of management to their own practice to improve patient care. Learning objectives are given throughout the book to ensure that the nurse can check their own understanding and apply the theory to real situations.

Occupational Health Nursing

Edited by **Brenda Slaney**

Series: Routledge Library Editions: Nurse Education and Nursing Care

When this book was originally published in 1980, the speciality of occupational health nursing was only just beginning to be recognised by the nursing profession and the public although nurses had been doing the job for over one hundred years. One of the reasons for this may well have been the lack of nursing literature dealing with the subject. This book, written by tutors of Occupational Health Nursing Certificate Courses and practitioners in industry considers topics and concepts that give the specialism its unique character.

Origins of General Nursing

C.Christopher Maggs

Series: Routledge Library Editions: Nurse Education and Nursing Care

Originally published in 1983 this book examines the beginnings of the nursing profession in its present form through one generation of general hospital nurses, Voluntary and Poor Law based, who were recruited and trained between 1881 and 1914. As such, they were the first to go through a co-ordinated and standardised training programme. This study is concerned with the way in which women chose and were chosen to be general nurses and the consequences that their decisions subsequently had for the profession.

Primary Nursing

Nursing in the Burford and Oxford Nursing Development Units

Edited by **Alan Pearson**

Series: Routledge Library Editions: Nurse Education and Nursing Care

Primary nursing is a system of care which reinstated the skilled professional nurse at the forefront of practical nursing care. Originally published in 1988, this book presents an argument, based on contemporary literature and on the practice in the former Burford and Oxford nursing development units, to support the introduction of primary nursing and nursing beds in general hospitals. It focuses on the philosophy of individualised patient care delivered by a professional nursing service and based on a close, therapeutic relationship between nurse and patient.

Psychology for Student Nurses

Jessie Williams

Series: Routledge Library Editions: Nurse Education and Nursing Care

Originally published in 1954 and as a second edition in 1957, this book provides a survey of the main psychological principles necessary to nurses in their work. As well as being a textbook for nurses in training, it was written in such a way as to be of value to qualified nurses as well. The author drew widely on her experience as psychologist in London Teaching Hospitals including Guys, Great Ormond Street and University College Hospital, and as a lecturer to nurses in training. She illustrates her theme with many practical examples drawn from hospital experience.

Research into Nurse Education

Bryn D. Davis

Series: Routledge Library Editions: Nurse Education and Nursing Care

Originally published in 1983, this book provides a revealing and comprehensive perspective on nurse education in the 20th Century. The opening chapters look at the students themselves: the sort of people who come into nursing and it examines why the drop-out rate is high and how reality differs from expectations. The following section examines teaching on the wards and the final part is concerned with the education and support of those involved in nurse teaching.

Social Skills for Nursing Practice

Peter French

Series: Routledge Library Editions: Nurse Education and Nursing Care

The acquisition of professional interpersonal skills remains one of the key skills in the practice of nursing. Originally published in 1983 and as a second edition in 1994, this established book maintains that social skills can be learnt, and that patient care can improve by anticipating and preventing problems. The book shows how nurses can develop personally and professionally by actively learning social skills in preference to their haphazard acquisition in practice. Drawing on a wide body of writing, research and nursing theory each chapter concludes with reflective activities and self-evaluation tasks and is preceded by learning objectives.

Social Skills Training and Psychiatric Nursing

Owen Hargie , Patrick J. McCartan

Series: Routledge Library Editions: Nurse Education and Nursing Care

When it was originally published in 1986, this book was one of the few to be written on social skills and mental health specifically for nurses. Yet it is nurses who are uniquely placed to improve the skills of those with mental illness since it is they who often have most contact with patients or clients. This book examines the place of social skills training in the practice of psychiatric nursing. It provides relevant background to the evidence for limited social skills in psychiatric patients and the expanding role of the nurse and considers more practical elements such as selection and assessment of patients for a programme, goal-setting and role play.

The Nurse as Therapist

A Behavioural Model

Edited by Philip J. Barker , Douglas Fraser

Series: Routledge Library Editions: Nurse Education and Nursing Care

This book, originally published in 1985, is intended to complement Philip Barker's previous book Behaviour Therapy Nursing. The latter focussed more on the principles of the behavioural approach to nursing, while this book adopts a more practical approach. It is also shown that the proposed model can be extended beyond psychiatric and learning disabilities into general nursing.

The Nursing Curriculum

Theory and Practice

Fred Greaves

Series: Routledge Library Editions: Nurse Education and Nursing Care

Originally published in 1987, this book expands and develops some of the ideas presented in the author's earlier volume Nurse Education and the Curriculum: A Curricular Model. This book expands that theoretical discussion and presents an analytical explanation of curriculum design, development and evaluation as applied to nursing. It also addresses the practical difficulties of building and implementing an effective curriculum for nursing education and discusses ways and means by which the facilitation of planning strategies can be developed.

A Framework for Development

The EEC and the ACP

Carol Cosgrove Twitchett

Series: Routledge Library Editions: Politics of the European Union

A Framework for Development (1981) focusses on the link between the European Economic Community and the 60 African, Caribbean and Pacific (ACP) states. It reviews the experience of EEC-ACP cooperation in the 1970s and comments on the provisions of the second Lomé Convention which was signed in October 1979. The book places EEC-ACP relations in the international political economy context of North-South issues and examines the nature of the Lomé link as a framework for the development of the ACP countries. It contains extensive statistical detail, especially regarding ACP trade with the European countries.

After 1992

The United States of Europe

Ernest Wistrich

Series: Routledge Library Editions: Politics of the European Union

After 1992 (1989) argues that the changes of 1992 will precipitate the transformation of the European Community into a full political and economic union, organized according to federal principles. In a thorough examination of its responsibilities in the monetary, economic, social and cultural spheres, it traces the European Community's progress towards its objective of European Union. It suggests ways in which national cultural identities can be preserved within a federal structure and introduces the principle of restricting federal powers to those matters that need common solutions and management, ensuring maximum autonomy and self-government in local communities and regions.

Britain into Europe

Public Opinion and the EEC 1961–75

Edited by Roger Jowell, Gerald Hoinville

Series: Routledge Library Editions: Politics of the European Union

Britain into Europe (1976) examines how the debate in Britain about EEC membership was conducted between 1961 and 1975. Using survey research data from Social and Community Planning Research it shows how public opinion on this critical issue developed over fifteen years. Roger Jowell and Gerald Hoinville describe the background to the decision to apply; James Spence traces the movements in public mood; Barry Hedges looks at the final four years; Dipak Nandy analyses the role of the media; Martin Collins examines the vote itself; Andrew Duff considers the constitutional implications of the referendum.

Britain's Bilateral Links Within Western Europe

William Wallace

Series: Routledge Library Editions: Politics of the European Union

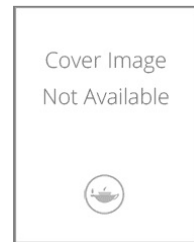

Britain's Bilateral Links Within Western Europe (1984) examines the questions of Britain's bilateral relations with its major West European partners – how did the British government adapt to the development of a network of intensive bilateral and multilateral collaboration? This entailed daily contacts between most departments of government on issues ranging from military procurement to educational exchange, from foreign policy to electricity supply, from cooperation against terrorism to the control of plant diseases.

Devolution in Context

Regional, Federal and Devolved Government in the EU

John Hopkins

Series: Routledge Library Editions: Politics of the European Union

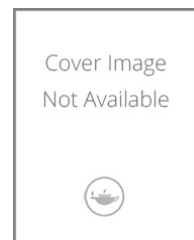

Devolution in Context (2002) is a work of comparative law that studies Western Europe's revolution in regional governance. It weaves history, politics and law into a coherent examination of the various structures of regional government, as well as examining the theory and practice that underpin Europe's regional revolution and the systems of regional government that developed as a result.

Eastern Europe

Political Crisis and Legitimation

Edited by Paul G. Lewis

Series: Routledge Library Editions: Politics of the European Union

Eastern Europe (1984) discusses the major questions that arise in the study of legitimation in post-Stalin Eastern Europe and relates them to the politics of the individual states. The problematic relationship between legitimacy and power in Eastern Europe is examined in detail, as is the relation of power to legitimacy and the occurrence of political crises.

Eastern Europe in the Post-War World

Hubert Ripka

Series: Routledge Library Editions: Politics of the European Union

Eastern Europe in the Post-War World (1961) examines the conditions in the 'satellites' of Eastern Europe before as well as after the Second World War. Its analysis of the effects of Soviet intervention in the satellites, not only on the satellites themselves but also on the Soviet empire as a whole, is a close reading of the politics of Eastern Europe at the time of the Cold War.

Educating European Citizens

Citizenship Values and the European Dimension

Edited by **Gordon H. Bell**

Series: *Routledge Library Editions: Politics of the European Union*

Educating European Citizens (1995) explores problems and issues in citizenship education in the context of the move towards European cultural, economic and political union. An international group of educators address questions such as: the contribution of schools to the maintenance of peace and security; education beyond nationalism; and the relationship between the theory and practice of citizenship and the European dimension.

Europe

The Challenge of Diversity

Helen Wallace , Adam Ridley

Series: *Routledge Library Editions: Politics of the European Union*

Europe: The Challenge of Diversity (1985) examines the various proposals for making a diverse European Community more effective, and for extending cooperation to political and security issues as well as economic. The obstacles to agreeing a collective economic programme are discussed in the light of the difficulties of achieving economic and monetary union. The study assesses the legal, institutional and negotiating requirements of adapting to diversity and the need for building bridges to other European partners.

Europe is my Country

The Story of West European Co-operation since 1945

Peter Wales

Series: *Routledge Library Editions: Politics of the European Union*

Europe is my Country (1963) is a survey of the movement towards uniting Europe into a single state, introducing Europe geographically and considering the East–West split. It describes how the European economy recovered after the Second World War through the transfusion of Marshall Aid and how various bodies grew to meet varying administrative needs – OEEC, OECD, GATT, the Council of Europe, EEC, and European defence embodied in NATO.

European Defence Cooperation

Trevor Taylor RUSI, UK

Series: *Routledge Library Editions: Politics of the European Union*

European Defence Cooperation (1984) considers the varied elements of European defence cooperation and the obstacles to further development of a European pillar within NATO. It argues that closer cooperation would alleviate several problems, including differences between the US and Europe; public unease about defence policies; and constraints on defence expenditure. With references to four areas (nuclear weapons and strategy, arms control, conventional forces and out-of-area activities) it discusses the prospects for increased cooperation, and makes proposals for changes in policy and in institutional arrangements.

European Movement and the Council of Europe

European Movement

Series: *Routledge Library Editions: Politics of the European Union*

European Movement and the Council of Europe (1949) begins with a Foreword by Winston Churchill, in which he states that his 'counsel to Europe can be given in a single word: "Unite!"' The book goes on to examine the history of European unity, and traces the story of the European movement, the political philosophies of political union and economic union, the Hague Congress, and the establishment of the Council of Europe and the European Court of Human Rights.

European Organisations

Political and Economic Planning

Series: *Routledge Library Editions: Politics of the European Union*

European Organisations (1959) analyses the working methods and techniques of cooperation evolved by the eight principal European organisations – ECE, OEEC, The Council of Europe, NATO, WEU, ECSC, EEC and Euratom. These organisations were set up to meet the need for postwar economic recovery, and the challenge of the cold war. They were designed to bring about continuous and comprehensive cooperation, and this book assesses the reasons for their success or failure and shows which have been the most effective – and why European nations began the move towards the creation of a 'supra-national' state.

Federalism and Federation in Western Europe

Edited by Michael Burgess University of Kent, UK

Series: Routledge Library Editions: Politics of the European Union

Federalism and Federation in Western Europe (1986) analyses the nature of federalism and federation in Europe. It argues that there is an important conceptual distinction between federalism and federation. Federalism is taken to be a multi-dimensional phenomenon arising out of a variety of human experiences, it is a distinctive set of values and attitudes; federation is the organisational expression of this wide diversity. The range of federalism within Western Europe is examined and compared within this conceptual framework.

European Political Parties

Edited by Stanley Henig , John Pinder

Series: Routledge Library Editions: Politics of the European Union

European Political Parties (1969) looks at the parties of Western Europe on a country by country basis, examining their roles in the increasing political integration in the European Economic Community. The party system is described, with a structural-functional analysis of individual parties. Particular emphasis is given to the relationship between the parties and their respective parliamentary groups, and between leaders and members.

Gaullism

The Rise and Fall of a Political Movement

Anthony Hartley

Series: Routledge Library Editions: Politics of the European Union

Gaullism (1972) is a historical-analytical study of the social and political movement of Gaullism, examining its political philosophy and practice, and its originator Charles de Gaulle. Starting with an analysis of de Gaulle's philosophy and the background of the Third Republic, the book traces the development of Gaullism during the war years and the Fourth Republic, details the founding of the Fifth Republic and its foreign and domestic policy, and examines the problems that came to a dramatic crystallization in the riots of May 1968.

European Unity

A Survey of the European Organisations

Michael Palmer , John Lambert , et al.

Series: Routledge Library Editions: Politics of the European Union

European Unity (1968) examines how the European Economic Community and other European international organisations transformed the relations between the countries of Western Europe in political, economic and defence affairs. It describes the postwar moves to European cooperation and unity and the resulting establishment of various organisations. Each of these are examined separately, in terms of its history and achievements. The origins and structure of each organisation and the working methods and techniques devised by them are described, and the reasons for the relative success or failure in their allotted tasks are analysed.

Parliaments in Western Europe

Edited by Philip Norton University of Hull, UK

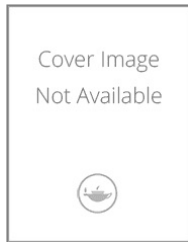

Series: Routledge Library Editions: Politics of the European Union

Over the last 20 years economic pressures have forced the governments of Western Europe to take hard and often immediate decisions. Policy-making has become more detached from parliaments as a result. How have the parliaments coped with these pressures and what role do they now play in the political system? Parliaments in Western Europe (1990) provides the first contemporary analysis of the various parliaments in Western Europe. Each author addresses two central questions: to what extent has the legislature been marginalised in policy-making, and to what extent has it been able to maintain popular support?

Political Parties and Coalitions in European Local Government

Edited by **Colin Mellors , Bert Pijenburg**

Series: *Routledge Library Editions: Politics of the European Union*

Political Parties and Coalitions in European Local Government (1989) brings together two separate fields in political science – the study of coalitions and the study of local government. It brings an array of new insights into the landscapes of national government and party politics at local level, and in doing so brings into focus the workings of European government for the English reader.

Regional Policy in the European Community

The Role of Regional Incentives

Edited by **Douglas Yuill , Kevin Allen , Chris Hull**

Series: *Routledge Library Editions: Politics of the European Union*

Regional Policy in the European Community (1980) presents a structured overview of regional incentives and policy in the European Community countries, set in the context of the regional problem in those countries. Four main policy elements can be isolated in EEC countries: infrastructure investment; the use of state-owned or state-controlled firms to help develop problem regions; the use of disincentives in regions under pressure; and regional incentive expenditure. This book treats each of the EEC countries systematically, examining the problem – the development of policy, the incentives and a comparison with other countries.

Political Parties in the European Community

Edited by **Stanley Henig**

Series: *Routledge Library Editions: Politics of the European Union*

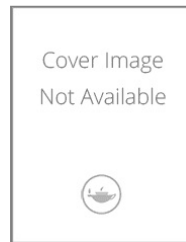

Political Parties in the European Community (1979) looks at the decision by the member governments of the European Community to proceed to the direct election of a European Parliament. It provides a full survey of the parties of the nine EC states, giving both information and analysis on political and electoral systems, party systems, philosophy and structure of major parties, finances, membership and organisation. In addition, it deals with the evolution of transnational groupings of parties both inside and outside the European Parliament, and the concluding chapter places Europe's parties in the overall context of the political societies within which they operate.

Regions in Crisis

New Perspectives in European Regional Theory

Edited by **John Carney , Ray Hudson , Jim Lewis**

Series: *Routledge Library Editions: Politics of the European Union*

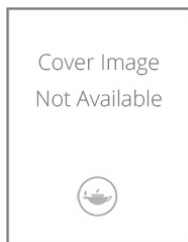

Regions in Crisis (1980) examines the new perspectives in regional theory that began to be firmly established in many European countries following the international recession of 1973. This book introduces these new perspectives and makes important assessments accessible to an English-speaking audience, with some chapters being specially translated for this edition. They all deal with some of the most crucial contemporary regional problems and regional crisis tendencies in Europe.

Politics and Bureaucracy in the European Community

A Portrait of the Commission of the E.E.C.

David Coombes

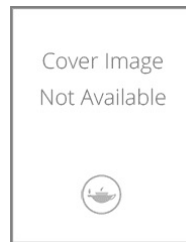

Series: *Routledge Library Editions: Politics of the European Union*

Politics and Bureaucracy in the European Community (1970) examines the European project's key institution, the Commission, an assessment that also examines the basic principles on which the European Union is based. It reveals the Commission to be one of the most curious and interesting political institutions of our time – not only from the point of view of international organization, but also as a special kind of governmental institution: a 'responsible bureaucracy' or 'independent officialdom'.

Social and Political Movements in Western Europe

Edited by **Martin Kolinsky , William E. Paterson**

Series: *Routledge Library Editions: Politics of the European Union*

Social and Political Movements in Western Europe (1976) discusses the ideological currents, social bases and policy directions to examine the impact of social movements on European political systems and societies. It looks at the nature of the relations among mass publics, movements and party systems and surveys in a comprehensive manner the entire political spectrum in a geographical area.

Spain, the EEC and NATO

Paul Preston , Denis Smyth

Series: Routledge Library Editions: Politics of the European Union

Spain, the EEC and NATO (1984) examines the causes and consequences of the paradoxical situation whereby NATO member states welcomed a newly-democratised Spain into their ranks in 1982, with many Spanish citizens being firm opponents to Spain's participation in NATO defences; while Spain's attempt to join the European Community enjoyed widespread public and political support in Spain, but aroused serious resistance within the EEC, particularly by France.

Tensions in the Territorial Politics of Western Europe

Edited by R. A. W. Rhodes University of Southampton, UK,
Vincent Wright

Series: Routledge Library Editions: Politics of the European Union

Tensions in the Territorial Politics of Western Europe (1987) examines the massive postwar increase in European government intervention, a major element being the development of welfare services provided by sub-central units of government. Governments have faced the dilemma of being electorally accountable for services delivered through differentiated, disaggregated policy systems. The territorial distribution of functions has become a major political and policy issue, and government centres have developed strategies for regulating the function-based policy system.

The Cost of Peace

Assessing Europe's Security Options

Edited by Stephen Kirby , Nick Hooper

Series: Routledge Library Editions: Politics of the European Union

The Cost of Peace (1991) presents an authoritative analysis of the issues in the development of European security. The study distinguishes between security within Europe, the security of Europe against outside threat, and the role of Europe in maintaining world order. Bringing together political scientists and defence economists, the book provides comprehensive coverage of the debate surrounding the creation of the new European security order.

The European Union and Democracy Promotion

The Case of North Africa

Edited by Richard Gillespie University of Liverpool, UK,
Richard Youngs University of Warwick, UK

Series: Routledge Library Editions: Politics of the European Union

The European Union and Democracy Promotion (2002) offers a critical assessment of the strategy upon which the EU promotion of democracy and human rights activity has been based, along with an analysis of its strengths and weaknesses. Contributors from a variety of European and North African countries show how the obstacles to political change in Algeria, Morocco, Tunisia and Egypt are not only to be found within these countries, but also in EU member states such as France and Spain.

The European Union and National Defence Policy

Edited by Jolyon Howorth , Anand Menon King's
College London, UK

Series: Routledge Library Editions: Politics of the European Union

The European Union and National Defence Policy (1997) focusses on the role that European integration has played in shaping the defence policies of various European countries. The book is divided into three distinct parts: the first outlines the tortuous history of attempts to link defence with European integration and highlights some recent initiatives. The second part includes studies of the four larger member states – France, Germany, Italy and Britain, as well as the Netherlands – providing an insight into the different national factors that condition the impact of EU action. The final part considers the key questions of nuclear weapons and arms procurement policies.

The Failure of the State

On the Distribution of Political and Economic Power in Europe

Edited by James Cornford

Series: Routledge Library Editions: Politics of the European Union

The Failure of the State (1975) examines the dilemmas faced by governments in the need to reconcile demands for local autonomy, and for increased opportunities for citizens to contribute to the decisions which affect their lives – at the same time as governments are held responsible for the general welfare of society, and under pressure to exert the powers of central government on the behalf of various groups. This book looks at how these dilemmas have been perceived and debated in Europe, East and West, and what solutions have been proposed or attempted.

The Limits of European Integration

Paul Taylor

Series: Routledge Library Editions: Politics of the European Union

The Limits of European Integration (1983) examines the increasing resistance to the loss of authority to EEC institutions in the 1970s and 80s, and the resulting decline in the momentum towards European political integration. The limits which the member states imposed upon their involvement with the European community and assessed, and the various theories and models of integration are discussed.

West European Prime Ministers

Edited by G.W. Jones

Series: Routledge Library Editions: Politics of the European Union

West European Prime Ministers (1991) examines the roles played by the prime ministers of seven West European countries: Britain, Germany, France, Italy, Spain, Holland and Ireland. In addition three general chapters provide a comparative perspective. The main focus is on the power of the prime ministers. Their many and various resources, such as their formal authority, their political influence, their administrative support and their personal skills, and the constraints on their use of these powers, are all examined and analysed.

The United States of Europe

Ernest Wistrich

Series: Routledge Library Editions: Politics of the European Union

The United States of Europe (1994) is a sequel to Wistrich's acclaimed After 1992 (also reissued as a Routledge Revival). With The United States of Europe the author seeks to address the developments that have taken place in Europe since, with an emphasis on political issues rather than 'the market'. He looks in detail at the Maastricht Treaty and its implications for future European union. He examines the implications of change in Eastern Europe and the geopolitical consequences of the break-up of the USSR, giving attention to the role of an enlarged and unified EU in international relations and looking at its role within the United Nations.

Family Doctors and Public Policy

A Study of Manpower Distribution

John R. Butler , J. M. Bevan , R. C. Taylor

Series: Routledge Library Editions: Public Policy

Originally published in 1973, this book investigates the spatial distribution of General Practitioners (GPs) via the Designated Area Allowance (DAA) which was introduced in England amid controversy in 1966. It analyses the effectiveness of the DAA and presents the results of a survey conducted among general practitioners in England, covering the patterns of geographical mobility among GPs, the relationship between choice of practice area and other connections with the locality. It also discusses the professional and personal differences between GPs in areas which are well served with GPs and those which are not.

Twentieth-Century Europe

Paths to Unity

Richard Vaughan

Series: Routledge Library Editions: Politics of the European Union

Twentieth-Century Europe (1979) traces the development of European unity from the early vision, inspired by the cataclysm of the First World War, to the institutions and the framework of the European Community. Throughout, the aim is to show how the idea and purpose of unity survived amid the turmoil of European politics and pointed the way to the creation of institutions which would allow European states to confront their problems together.

Housing and Public Policy

Stewart Lansley

Series: Routledge Library Editions: Public Policy

Housing in the UK and globally has long been an area of central and local government concern, and this reflects its vital importance for both individual and social welfare. Despite increased public expenditure on housing in the post-war years housing remains a major problem area of social and economic policy. While housing standards have risen on average, significant sections of the community continue to endure poor housing conditions and prospects. Originally published in 1979, this study considers the role of public policy in housing, presenting a critical and contemporary account of policies in the late 20th century.

Implementing Public Policy

Ruth Levitt

Series: Routledge Library Editions: Public Policy

Originally published in 1980, this book takes as case studies various policies arising from the Control of Pollution Act 1974 and traces their implementation and impact. The information about disposal of toxic waste on land, bathing water quality, noise abatement zones and industrial air pollution offers fruitful areas of investigation, highlighting different aspects of environmental pollution policy and its wider implications as well as illustrating vital components of the implication process, including enforcement and discretion. Many of these issues are as pertinent now as when the book was first published.

Policy and Action

Essays on the Implementation of Public Policy

Edited by Susan Barrett, Colin Fudge

Series: Routledge Library Editions: Public Policy

It is widely appreciated that policies, however carefully formulated, too often fall down at the implementation stage. This collection, originally published in 1981 and which includes a number of case studies illustrating the roles and workings of the agencies involved, focuses on implementation in public policy. Part 1 reviews the literature on implementation and provides a theoretical context for examining the ten case studies in Part 2, which cover such policy areas as public expenditure, employment, housing, social services, health, planning and land.

Public Policy and Economic Theory

J. M. Oliver, G. H. Webster

Series: Routledge Library Editions: Public Policy

Originally published in 1970 this textbook on applied economics focusses on those parts of theory which have specifically made a contribution to policy problems. The book provides a coherent treatment of the subject at a particular level – the subject being the application of economic theory to government intervention in the economy. The first part deals with the techniques and size of such intervention and the accepted objectives.

Public Policy and the Tax System

Edited by G. A. Hughes, G. M. Heal

Series: Routledge Library Editions: Public Policy

Originally published in 1980, this volume reviews and synthesises some of the analytical models used by economists in the late 20th century to tackle certain major questions of public policy, and specifically issues of fiscal policy in its widest sense. The essays, dedicated to the economist James Meade and written by contributors who were associated with him at Cambridge provide students and professional economists with an understanding of the ways in which specific taxes and general fiscal instruments may be used to achieve the goals of public policy with respect to the distribution of income and wealth.

A History of the National Graphical Association

John Gennard

Series: Routledge Library Editions: Publishing and Printing

First published in 1990 and written with full access to the official records of the NGA, this book provides a remarkably detailed history of one of Britain's most democratic and industrially effective trades unions. The author describes and analyses the evolution and development of the NGA from 1948 to 1989. This is, however, more than a study of one trade union. It provides unparalleled insight into post-war industrial relations in the general printing and newspaper industry and a unique account and analysis of the impact of the most radical industrial revolution ever experienced in these industries. It also stands alone as a fascinating inquiry into the anatomy of union mergers.

British Book Trade Organisation

A Report on the Work of the Joint Committee

Edited by F. D. Sanders

Series: Routledge Library Editions: Publishing and Printing

Originally published in 1939, British Book Trade Organisation: A Report on the Work of the Joint Committee is a twelve-year study of the methods of book sales in Britain. The Joint Committee issued three reports, which were summarised here along with the Committee's Recommendations, and an indication of the kind of action that had since resulted. A crucial factor in the push for further reforms that followed, today this title can be read in its historical context.

Dr Johnson's Printer

The Life of William Strahan

J. A. Cochrane

Series: Routledge Library Editions: Publishing and Printing

William Strahan was one of the leading figures in the book trade of the 18th century. As King's Printer, a member of Parliament and the owner of the greatest printing house in London. First published in 1964, Strahan's career had for the most part been relegated to footnotes in the biographies of other men. This was the first full length survey of his life as a whole. The author, who had himself been both publisher and printer, had been able to draw upon much hitherto unpublished material in collections in this country and the US. Strahan was an admirable letter writer, and his correspondence with authors, booksellers and printers touches on many problems still relevant at the time.

Electronic Publishing

Looking for a Blueprint

Joost Kist

Series: Routledge Library Editions: Publishing and Printing

With the development of new technologies over the previous decade and more moderately priced and faster systems becoming available Electronic Publishing, originally published in 1987, provided a much-needed close look at present and potential publishing techniques at the time. In the view of the author the relatively new electronic and optical media were expected to integrate with or supplement flourishing media such as books, looseleaf publications and journals. The aim of this book was to guide those people confronted with the new information technology, be they professionals or the generally interested reader, through the complex problems associated with this medium.

From Swan Sonnenschein to George Allen & Unwin Ltd

F. A. Mumby , Frances H. S. Stallybrass

Series: Routledge Library Editions: Publishing and Printing

Originally published in 1955, From Swan Sonnenschein to George Allen & Unwin Ltd states that the lives of certain publishing houses are a direct reflection of the cultural history of the period in which they work. They draw their successes from the intellectual enthusiasms of the time and in no small measure contribute towards the education of their contemporaries. Of this sort of publisher no better examples could be found at the end of the nineteenth century than Swan Sonnenschein and George Allen. Both were men of serious purpose, with a sense of mission in their business activities.

Pioneers in Printing

Sean Jennett

Series: Routledge Library Editions: Publishing and Printing

Originally published in 1958, through a series of lively biographies of men important in the history of printing – Gutenberg, Caxton, Baskerville, Caslon, Senefelder, Koenig, Mergenthaler, and Lanston – Pioneers in Printing traces the growth and development of the craft of printing from its invention in the fifteenth century to modern times. The aim of the book is not to recount the technicalities of machinery, but rather to present each character as a living man engrossed in his ideas and pursuing them persistently, in conflict or in agreement with his period. The book is written in a clear and easy style, free of technical terms.

Printer to the House

The Story of Hansard

J. C. Trewin , E. M. King

Series: Routledge Library Editions: Publishing and Printing

Everyone knows the name of Hansard, the famous record of Parliamentary proceedings. Very few people know how it began. Originally published in 1952, here was for the first time, the authoritative history of the Hansard family and of its work, for nearly 100 years, as Parliamentary printers in charge of the Journals of the House of Commons and of the full record of debates that still bears the family name. Full of surprising and important detail, it was written largely from unpublished papers, letters, and the manuscript diaries of Luke Graves Hansard, son of old Luke, founder of the printing dynasty.

Printing in London

From 1476 to Modern Times

P. M. Handover

Series: Routledge Library Editions: Publishing and Printing

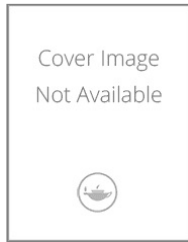

Originally published in 1960, the early history of news-gathering, of advertisement blocks and displayed advertising, of women's magazine, are among the varied aspects of the London printing trade discussed in this book. Separate chapters are devoted to jobbing printing and the controversial, competitive Bible patent. The considerable technical information includes detailed descriptions of nineteenth-century presses. Besides an account of the struggle for power in the Stationers' Company at certain periods, the livelier – and often more ruthless – personalities in the London trade, such as John Wolfe, Robert Barker I, Miles Flesher, Henry Hills and John Bell are vigorously described.

The Book World Today

A New Survey of the Making and Distribution of Books in Britain

Edited by **John Hampden**

Series: *Routledge Library Editions: Publishing and Printing*

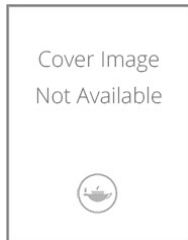

First published in 1957, this was the most comprehensive survey yet attempted of the making and distribution of books in Britain. All the main aspects and problems of this complicated process are expounded by men of high standing in their own fields, who wrote from expert knowledge. Anyone who earned their living from books, was likely to find here facts and ideas which were new to them. The book has been edited mainly from the publisher's point of view, and publishing is given particularly full treatment. But the author, the agent, the booksellers, the librarians and the other contributors state their cases freely, often expressing views which clash with those of the publishers.

The House of Routledge 1834–1934

With a History of Kegan Paul, Trench, Trübner and Other Associated Firms

F. A. Mumby

Series: *Routledge Library Editions: Publishing and Printing*

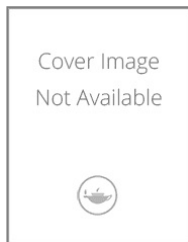

Originally published in 1934, this book was published for the company's centenary. It tells the story of George Routledge and how he forged his way to the forefront of publishing by 'sheer indomitable energy'. One of the objects of the work was to place on record the crowded story of his life. Turning back many forgotten or half-forgotten pages of literary and publishing history – with their glimpses of bygone haunts; of buccaneering practices in the bad old days before copyright brought protection at long last to English and American authors alike; of "Yellow Backs" and other Victorian libraries. It also covers the fortunes of other associated publishing houses of the time.

The Lamp of Learning

Two Centuries of Publishing at Taylor & Francis

W. H. Brock, A. J. Meadows

Series: *Routledge Library Editions: Publishing and Printing*

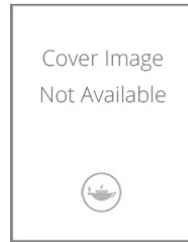

Originally published in 1998, when for two centuries Taylor & Francis had been committed to the publication of scholarly information. Ever since the launching of the Philosophical Magazine in 1798, the publishing company run by Richard Taylor and later by William Francis has specialised in the printing and publishing of scientific periodicals and books. The story of the development of Taylor & Francis in this book is much more than an isolated account of one small company – it throws light on the whole process of scientific communication during the previous 200 years.

A Code of Ethics for Social Work

The Second Step

Edited by **David Watson**

Series: *Routledge Library Editions: Social Administration & Social Policy*

Originally published in 1985 the discussions in this book open up a series of important issues for the ethical practice of social work, including questions about the proper relations between personal and professional values, professional responsibility, relations between professionals and their employers, the rights of clients and the education appropriate to ethical social work practice.

An Introduction to the Study of Social Administration

Edited by **David C. Marsh**

Series: *Routledge Library Editions: Social Administration & Social Policy*

Originally published in 1965, this introductory textbook provides the student with an outline of the subject matter of Social Administration. It deals with the growth of this discipline of study, its inter-relatedness with the other social sciences, and examines the historical development and structure of the social services in the 20th Century. The book discusses the complexity of the study of the study of the formation and implementation of social policy in the United Kingdom and will be of interest to those in the areas of the history of social policy and the welfare state.

Caring for Strangers

An Introduction to Practical Philosophy for Student of Social Administration

David Watson

Series: *Routledge Library Editions: Social Administration & Social Policy*

Originally published in 1980, this book introduces students of social studies to ideas in moral, social and political philosophy which are useful for assessing social policy. At the same time the book enables philosophy students to discover the value of social and political philosophy beyond its traditional confines. The book begins with the claim that modern social welfare has to be thought of as help given to strangers and goes on to ask how services of this sort can be justified.

Housing, Social Policy and the State

Edited by **Joseph Melling**

Series: *Routledge Library Editions: Social Administration & Social Policy*

The topic of housing is central to urban history as well as to social policy. Historians have focussed either on local conditions or national developments, but until first publication of this book in 1980, there had been few systematic attempts to relate local amenities to general policy. The essays provide an interdisciplinary approach to the study of housing, blending original local studies with a novel theoretical perspective on the development of social policy. Covering a wide geographical area, the book focusses on housing conditions within the locality surveyed and the intervention of both local and central government in the provision of working-class dwellings.

Introducing Social Policy

Edited by **David C. Marsh**

Series: *Routledge Library Editions: Social Administration & Social Policy*

Originally published in 1979, this book concentrates on the major developments in social policy in the second half of the 20th century. The first part considers these in relation to the economic and social environment, comprising essays on social policy in relation to industry, urban planning, and housing need. Further chapters consider social policies designed to meet individual needs such as education, health, and the maintenance of income. The final section deals with personal social services, and the relation of social policy to crime. For its breadth and scope of coverage the book will be of interest to all students of the history of social policy and social work.

Routledge

Introduction to Social Administration in Britain

Muriel Brown , Sarah Payne

Series: *Routledge Library Editions: Social Administration & Social Policy*

Published in 1994, as a revised and updated seventh edition, this classic guide to social administration was first published in 1969. The book provides information about social problems and the structure and working of the social services in the late 20th Century. It also identifies the main lines of development in social legislation and clarifies the issues that dominated social policy, many of which are still relevant today. Major changes to provision in social security, health, education, employment and personal social services have been incorporated and the conflicts around these changes explored.

Poor Parents

Social Policy and the 'Cycle of Deprivation'

Bill Jordan

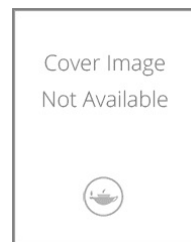

Series: *Routledge Library Editions: Social Administration & Social Policy*

Originally published in 1974, this book provides a critique of official policy towards families with young children living on low incomes and looks in detail at some of the myths prevalent in the public debate – both political and academic – about the 'cycle of deprivation', a phrase coined by Sir Keith Joseph (British Politician, 1918-1994). One of these myths is that it is possible to provide, on a selective basis, the best services for the poorest members of the community. Another is that the poorest group is the one which is in most need of every kind of social service.

Retiring to the Seaside

Valerie Karn

Series: *Routledge Library Editions: Social Administration & Social Policy*

Originally published in 1977 and based on a survey of 1,000 retired people in two 'retirement resorts' – Bexhill and Clacton – the book also quotes extensively from interviews with local government officials, doctors, and social workers. The topics discussed include the scale of movement of retired people to the coast and the choices open to retired people once they have made the decision to move. The book discusses social life in the seaside resorts, contact with family and friends, leisure activities and the financial position and housing opportunities of the retired.

Social Policy in Action

Joan L. M. Eyden

Series: *Routledge Library Editions: Social Administration & Social Policy*

Social policy is never static because both needs and resources alter. It must involve a responsiveness to social change on the part of the agencies involved. Originally published in 1969, this study employs this dynamic approach and sets the subject against a background of democratic involvement. It discusses the fundamental questions of the nature, scope and intent of social policy. Throughout the approach to the subject is integrative. The book explains issues in terms of social policy, not fragmented social policies, in the discussion of common factors and common problems and above all in the realistic appraisal of means and ends in contemporary society.

Social Policy in the Irish Republic

P. R. Kaim-Caudle

Series: Routledge Library Editions: Social Administration & Social Policy

Originally published in 1967, this book examines the health services, social insurance, social assistance, family allowances and housing in the Irish Republic during the late 20th Century. Discussion of the social services is introduced by an outline of the environment in which social policy operates – the political system, social implications of the demographic characteristics and the country's economy. The book will be of interest to historians of social policy and social work.

To Do The Sick No Harm

A Study of the British Voluntary Hospital System to 1875

John Woodward

Series: Routledge Library Editions: Social Administration & Social Policy

What part did the British voluntary hospital system play in the health of the community in the eighteenth and nineteenth centuries? Did hospitals kill or cure? Originally published in 1974, this study investigates these questions through a pioneering examination of the extant hospital records, ranging from admissions registers to annual reports, and by an analysis of the contemporary literature. It relates the hospital system to the changing economic and social environment and is primarily concerned with the patients themselves and their experiences.

The Aims and Outcomes of Social Policy Research

Patricia Thomas

Series: Routledge Library Editions: Social Administration & Social Policy

Originally published in 1985, this book investigates, through real cases, whether independently funded research which was intended to solve social problems has had the desired effect. It also inquires whether civil servants believe that research has a part to play in the formulation of policy. The researcher's time scale is long and the policy maker's is short. Does this conflict always mean that the results of research are produced long after policy has been decided and implemented? The book also examines the funders of social research who make up the third party in the uneasy relationship between social scientists and policy makers.

The Prime Ministers

Volume the First: From Sir Robert Walpole to Sir Robert Peel

Edited by Herbert van Thal

Series: The Prime Ministers: 1721–1974

The office of Prime Minister has been based on convention and has been shaped by personal and political factors; it is what the holder makes of it and that is why a sensible way to study the development of the office is by reading the biographies of its holders. Originally published in 1974 (volume 1) and 1975 (volume 2), beginning with Robert Walpole and including Edward Heath, the holder at the time, there had been forty-seven Prime Ministers in all. Yet there had been no book devoted exclusively to recording their characters, actions and achievements, to which the student or the interested general reader could turn for immediate information. These volumes help to fill this gap.

The English Prison Officer Since 1850

A Study in Conflict

J. E. Thomas

Series: Routledge Library Editions: Social Administration & Social Policy

When this book was originally published in 1972 very little had been written about prison staff. The author acknowledges that interest should of course be concentrated on the prisoner community but maintains that the prison staff must also be examined if prisons are to be fully understood. This book demonstrates that the central figure in any prison system is the basic grade uniformed officer and that the collective views of officers have a direct and supreme impact on the working of the system. The book discusses the role of the prison officer in the English prison system, a highly centralized organization which has been in operation for over 150 years.
